Daily Schedule...for summertime and school vacations...

Set up a daily time when your children are to do some reading or math work. I always had my kids spend 15 minutes after breakfast doing 2 - 3 pages in each workbook (one math and one reading) so they would have a little bit of content work and then have the rest of the day to do whatever they wanted to.

This gave them consistency and they knew they would have the rest of the day to play.

Some parents prefer to have their kids do their 15 minutes of workbook work after lunch. It doesn't matter when you do it; the important thing is that you are consistent. For our family it worked best to do it right after breakfast.

After they were finished, or while they were working I would pull one of my kids aside and do the Five Minutes to Better Reading Skills with them so they would have 5 minutes of fluency training to improve their fluency over the summer. Doing this made it so within 20 minutes of breakfast each of my kids had worked for 15 minutes on their own and worked with me for 5 minutes on their reading fluency.

YEAR ROUND ACTIVITY...

TIP: Fluency training is one of the easiest and most important things a parent can do to help their kids improve their reading skills.

Most Ignored and Should Be #1 Priority

Sally Shawitz, M. D. states in her book *Overcoming Dyslexia*, "I urge parents of dyslexic children [or any child] to make fluency training – repeated oral reading – their number one priority. Because it involves reinforcement rather than teaching a child a new concept, it is ideally suited for the home."

Time Needed to Improve Fluency

Cecil Mercer, a researcher from the University of Florida, published his results from his study *Effects of Fluency Intervention for Middle Schoolers with Specific Learning Disabilities* in (2000) stating daily practice can be for as little as five or six minutes. Substantial gains in reading fluency came from repeated oral reading of various sorts such as letters or words for five or six minutes a day. The key to the success was doing the repeated oral reading over a period of time e.g. six months to twenty-three months.

Five Year Study

And, Debra Wilson from Redding, California states, "We did a five year study using Bonnie Terry's *Five Minutes to Better Reading Skills* and the reading fluency of kids in our school district improved dramatically."

Weekly Schedule

We get together as a family and decide where we want to go for our adventure...sometimes it would be an activity in the yard or around the block. Other times it would be a trip to the park, the pool, a museum, a historic site, or a factory.

On Fridays or over the weekend we'd take off for our adventure.

It is important to have your kids be part of the decision making on where you decide to go or what you decide to do. That way everyone got to at one time or another go where they wanted too.

Follow-up activity to get the most out of your fieldtrip:

To help your kids retain the wonderful experiences they are having, it is important to help them to process the activity. An easy way to do that is to have them write simple summary paragraphs about where you went and what they liked or didn't like about the excursion. The fill-in-the-blank graphic organizers in *Ten Minutes to Better Study Skills* are perfect for this.

When a student processes what they have done in a written format, they make multiple connections with the activity and increase their comprehension in multiples of ways. This will also give them an enlarged memory bank of background knowledge to bring to any reading activity they do in the future.

Good readers are those who know a bit about everything, so they will have some background knowledge that they can apply to whatever comes up in a reading text!

Research has established that students' background knowledge plays a critical role in their understanding of the higher-level concepts contained in most content area materials.

Once students learn decoding (sounding out words), they can decode anything. But, in order to understand what they read, they must be able to read fluently and have prior knowledge to attach meaning to what they are reading.

Activities for Weekly Trips

Activities for Weekly Trips

1. The local zoo

2. A pet store

3. The local park/playground & picnic

4. The pool

5. The river

6. The roller rink

7. The movies

8.  A historic site: Go on-line and do a search on Google for historic sites in your city, town, county, or in your state and you will find numerous ones that you can visit for no or very low cost.

9. City parks

10. County parks

Activities for Weekly Trips

11. State parks
12. Hike: Go on-line and do a search on Google for places to hike in your city, town, county, or in your state and you will find numerous ones that you can visit for no or very low cost.

13. Visit a local factory - arrange with the manager or human services for a tour of their office or factory:
- Computer manufactures such as Hewlett Packard and Intel

- Bakeries
- Your local nursery
- McDonalds or Burger King
- Potato chip factory

- Jelly Bean factory
- Television stations

- Radio stations
- Local newspaper office

Activities for Weekly Trips

14. Attend local government meetings: city council meetings

15. Visit the state capital

16. A family bike hike

17. A Local concert

18. Day trips: You can find a wide range of day trips by contacting your local visitor's bureau or chamber of commerce. You will be surprised at how many places they know about that you can go to.

Activities for Weekly Trips

19. Visit botanical gardens

20. Visit the county fair or state fair

21. An art gallery

22. An antique shop

23. The library

24. Local book store

25. Herb farm

Activities for Nature Adventures

Activities for Nature Adventures

Over the years I've done a variety of nature activities with my Girl Scout troop, the Girl Scout day camps I've directed, the Cub Scouts, and Boy Scouts I've worked with. Here are a variety of activities. I also came across a deck of cards with activities that were similar to ones I've done over the years, so I've included where you can find the cards at the end of this section.

1. Finding Sounds

Do this activity in your yard or out in nature. In fact, you might do it both places and compare the differences.

With your eyes closed for a few minutes, sit or stand as quietly as possible and listen to the sounds around you.

Can you hear the wind? The rustling leaves of the tree? Any birds or bugs?
How many different sounds do you hear? Make a list of them.

Can you imitate any of the sounds you hear?

2. Notice Your Surroundings

Go to an outdoor spot in the morning, in the afternoon, and in the evening. Notice everything you can about the surroundings. What is the same, what has changed? Make a list each time and compare them.

3. Nature Rubbings

Take several sheets of paper and some crayons. Do nature rubbings...
Rub the bark of trees, the sidewalk, or a bench. See how many different textures you can do rubbings of.

4. Shape Hike

See how many geometric shapes you can find while outside.
How many triangle shapes, diamond shapes, square shapes,
circle shapes, sphere shapes?

Make a list.

After making the list, see how many of them are pointy? How many of them are soft?

6. Go on a scavenger hike

You can even do this at a mall - where you go ahead of time to write down the list of things the kids need to find - and then they need to write down where that particular item was e.g. a particular sign on a shop window.

Activities for Nature Adventures

7. Leaf rubbings

Collect leaves of different sizes and shapes; place them under a sheet of paper and do crayon rubbings of them.

8. Incher Hike

Go on a hike in your yard or around the block and see how many things you can find that are an inch long, 6 inches long, and a foot long. Compare your lists. What was the most unusual thing you found? The most colorful?

9. Color Hike

Go on a hike and write down all of the things you see that are different colors. How many colors did you see?

10. Compass hike

Learn how to use a compass and go on a simple compass hike. Then make it more difficult

Activities for Nature Adventures

11. Treasure hunt

Set up a treasure hunt and set the kids off for a treasure hunt in the yard, on your street, or at the park.

12. Knots

Learn how to tie different types of knots:

Square knots

Bowline knots

Half Hitches

Clove Hitch

Sheepshank

Do macrame projects with knots or make a knot ladder

For additional nature activities: 52 Nature Activities by Lynn Gordon Go to: www.chroniclebooks.com

Additional Outdoor Activities

13. Play badminton

14.

Play croquet

15. Play horseshoes

Additional Outdoor Activities

16. Play wall ball

Wall Ball

When I was a kid I played this all the time. Then, when I had kids, we played this.

Materials

- * Tennis ball or large bounce ball
- * Wall

Directions

This is a game for one or two players. The idea is to throw and catch the ball against the wall according to a sequence of tasks. When you miss, you lose your turn and have to start all over the next time.

Here are some tasks:

- * Meensies: Throw the ball and catch it before it bounces—10 times
- * Onesies: Throw the ball and catch it after one bounce—9 times
- * Clapsies: Throw the ball and clap hands before you catch it—8 times
- * Kneesies: Throw the ball and touch your knees before catching it—7 times
- * Twosies: Throw the ball and catch it after two bounces—6 times
- * Under the knee: Lift your leg and throw the ball under the knee before catching it—5 times
- * Highsies: Throw the ball as high as you can before catching it—4 times
- * Touch the ground: Throw the ball and catch it after touching the ground—2 times
- * Turn around: Throw the ball and catch it after turning completely around—1 time

Note: After going through the sequence without missing, go through again using the right hand only, then with the left hand only.

Activities to Do at Home

Activities to Do at Home

1. Make paper-bag puppets & put on a puppet show
Make them characters from your favorite nursery rhyme or book
Use lunch-size bags, crayons, markers, buttons, yarn, & glue

2. Make grocery sack 'puppet' heads you can wear & put on a play or a skit with them - cut holes for eyes & slits for arm holes.

e.g.: You can make a cute ladybug costume from a large paper grocery bag.
You can also make antennae by wrapping two pipe cleaners onto a plastic headband.

Supplies needed:

- * 1 large paper grocery bag
- * Scissors
- * Red tempera paint
- * Black marker or black tempera paint

1. Cut a large paper grocery bag open along the seam (this will be the back of the costume). Then cut a neck hole in what was the bottom of the bag.
2. Cut an arm hole on each side of the bag.
3. Paint a large red circle (using red tempera paint) on the front on the bag. Let the paint dry.
4. Draw or paint a black line down the center of the circle and draw black spots on both sides. To make cute antennae, wrap two pipe cleaners on a plastic headband. Make loops at the top.

Activities to Do at Home

3. Make sock puppets, use old socks, felt pieces for tongue, buttons for eyes, cut the plastic rings that hold soda cans together for 'glasses', cotton balls, etc. Put together a skit or play with several puppets.

4. Do Draw & Tell Stories
Go on-line and do a search on Google for Draw and Tell Stories or go to your local library for them.

5. Bake cookies, pastries, or cakes together (Use fractions while you bake.)

6. Cooking lessons, learn how to follow a recipe in a book.

7. Set up an obstacle course in your garage or a room in your house

Activities to Do at Home

8. Play musical chairs

9. Draw or paint (water color or poster paint)

10. Finger paint

11. Do soap carvings - ivory soap is good for this

12. Build a model car or airplane

Activities to Do at Home

13. Paper bag stories: Place 5 - 6 different unconnected objects in a bag and then have the kids make up a story using each of the items in it. e.g.: hot water bottle, scarf, string, can, boot, etc.

14. Paper bag skits: Place 5 - 6 different objects in a bag and then have the kids make up a skit using each of the items in it. e.g.: hat, ball, clip, envelope, toy, etc.

15. Play Simon Says or Mother May I

16. Dress up and act as your favorite character in a book you are reading for the day

Activities to Do at Home

17. Have a backwards day where you eat dinner in the morning and breakfast in the evening.
18. Make homemade instruments - use cans or boxes with strings, rubber or leather, etc to make them.

Maracas: plastic eggs filled with rice or popcorn kernels - glue them shut with a hot glue gun

Cymbals: Make cymbals out of old tin foil pans. Attach a string for a handle.

Sand Blocks:

Materials:

pieces of wood (1X4 cut into 4" lengths)

felt rectangles cut to fit blocks of wood

medium grit sandpaper cut same size as felt pieces

white or other glue

Polyurethane and brush to seal wood

Rhythm Sticks: Two wooden dowels should be given to each interested child. The sticks can be decorated with paint or markers.

Kazoos: Make Kazoos with empty paper towel rolls and waxed paper. The children can decorate the outside of the kazoos with markers. Place a piece of waxed paper over one end of the roll and secure it with a rubber band. Poke 2 or 3 small holes into the waxed paper allowing sound to be produced.

Activities to Do at Home

19. Do a Jigsaw Puzzle as a family

20. Build a blanket fort

21. Have a movie/video day

Activities to Do at Home

22. Play charades

23. Read together

24. Play board games - turn your game night into a game day.

25. Look at family photo albums, put current photos into a photo album

Recommended Games for Game Night

Recommended Games for Game Night

1. The Sentence Zone: Learn English Grammar while having fun. (age 6 - adult)

2. The Comprehension Zone: Rocket Rap:
Improve reading & listening comprehension while having fun. (age 7 - adult)

3. The Math Zone: Improve calculation accuracy while having fun. (age 7 - adult)

4. Checkers (age 6 - adult)

5. Chess (age 8 - adult)

Recommended Games for Game Night

6. Uno (age 7 - adult)

7. Rummy Cube (age 8 - adult)

8. Number Quest (age 7 - adult)

9. Equate: Learn about equations while having fun (age 8 - adult)

10. Brain Quest: Learn factual knowledge while having fun. (age 7 - adult)

Recommended Games for Game Night

11. Monopoly (age 8 - adult)

12. Quiddler (age 8 - adult)

13. Set (age 6 - adult)

13. Apples to Apples (age 7 - adult) (There are several versions of the game.)

14. Carcassonne (age 10 - adult)

15. Settlers of Catan (age 8 - adult)

Recommended Games for Game Night

16. Dominoes (age 7 - adult)

17. Chinese Checkers (age 7 - adult)

18. Scrabble (age 8 - adult)

19. Upwords (age 7 - adult)

20. Trivial Pursuit for Kids (age 8 - adult)
