Parents Say...

"This is the best dyslexia program we've used... and we've tried a lot of different programs. Thank you, thank you, thank you!"

Millie H., Florida

"What made the difference for me was the weekly calls – where I could ask my questions and get answers to exactly what we were struggling with. I can't believe the difference in my son! 'Thank you' hardly touches what I feel!"

Regina L., Illinois

Bonnie Terry

M. Ed., BCET

Board Certified Educational Therapist
and Learning Disabilities Specialist

- ♦ Dyslexia, ADHD and learning disabilities specialist for over 30 years
- ♦ Speaker at local, regional, and international conferences, forums, community groups, parent groups, and universities
- ♦ Best selling author: *School Strategies for ADHD Kids* and *Family Strategies for ADHD Kids*

LEARNING

Neuro-Developmental Behaviorally Based Assessment

We start by finding out where your child's skills are, uncovering the underlying root cause of their learning problems. Once we know what the problems are, we develop a personalized learning plan. This assessment covers:

- ♦ 27 areas of perception
- ♦ Visual processing
- ♦ Auditory processing
- ♦ Kinesthetic/Tactile processing
- ♦ Executive function
- ♦ Working memory

VAK Therapy Program

Visual, Auditory, Kinesthetic Therapy Program

- ♦ Vision perception skills
- ♦ Auditory processing skills
- ♦ Kinesthetic/Tactile perception skills
- ♦ Changes the brain to make learning easier
- ♦ Address the underlying root causes of learning struggles
- ♦ 12 Week program with over 17 step-by-step video and audio lessons

"I can't believe how these simple activities have made such a difference in my life!"

Alan P., Washington

Spelling and Phonics Program

- ♦ Improve spelling and phonics skills
- ♦ Learn the 8 ways we put letters together to make words
- ♦ Improve word attack skills: decoding and encoding words
- ♦ Improve reading fluency
- ♦ Visual, auditory, and kinesthetic/tactile lessons
- ♦ Over 50 step-by-step video & audio lessons

"I never knew spelling could be so easy! The audio and video lessons make it so easy. I'm so glad I did this!"

Bill E., California

Reading, Writing, and Study Skills Program

- ♦ Reading fluency and comprehension
- ♦ Writing skills: note taking, paragraph writing and essay writing
- ♦ Listening comprehension
- ♦ Textbook reading
- ♦ Visual, auditory, and kinesthetic/tactile lessons
- ♦ 12 Week program with over 22 step-by-step video and audio lessons PLUS 3 live lessons

"I did find out rather quickly that your reading and writing program for kids with dyslexia was just what we needed. It was a 100% turnaround!"

Margie K., California

Math Program

- ♦ Cuts math homework time by 25%
- ♦ Accuracy with addition, subtraction, multiplication, and division
- ♦ Solve word problems easily
- ♦ Fractions, decimals, beginning algebra
- ♦ Visual, auditory, and kinesthetic/tactile lessons
- ♦ 17 Week program with over 30 step-by-step video lessons

"Math papers before... 50%, lucky to get 60%! Math papers after, 90% to 100%. Need I say more! Thank you so much!"

Jenna L., Idaho

Test Taking Strategies Program

- ♦ Preparing for tests (basic note taking)
- ♦ Test taking strategies (visualization and note taking)
- ♦ Note taking while listening
- ♦ Test taking strategies for standardized tests
- ♦ 7 Step-by-step video lessons

I was able to pass the exam due to your test taking strategies. I had struggled so much in the past with this exam. I was afraid I'd never pass...BUT with your strategies I did it! Thank you so much, Bonnie!"

Tejinder K., California
